

Welcome Week 2022

In the year 2022, the MEPS program had the pleasure to receive 24 new students from 17 different countries. Thus, this was a good opportunity to warmly welcome our new cohort.

After showing them around the campus and the city center including the two castles we invited them to the annual ceremony. The event took place on October 12, bringing together these new and senior students, professors and staff.

The introduction of the new students was accompanied by speeches of Prof. Hunold as the program director, our alumna Dariya Kiraeva, and Prof. Fugger from the University of Cologne who insightfully presented the field of Market Design.
